### Section V - Comments

Please attach any additional information you would like to share about your activities (e.g., external promotion of WasteWise, employee education, etc.) or comments about the WasteWise program. With permission from individual organizations, EPA will share successes with others.

This past year we hosted an event for America Recycles Day for our employees. We promoted WasteWise (using the program's logo and mission) via our Web site, in brochures to our customers, and on billboards throughout the community. We also promote the link between climate and waste and share our greenhouse gas emissions reductions with our employees and customers through quarterly newsletters. This effort has been quite a success and has lead to new efforts to decrease our impact on the environment.
